

Mapping Survey

Roma Projects among diaconal organisations - 2015

April 2015

Dear friends,

In 2012, the Eurodiaconia Roma Network carried out its first survey of members' projects in the field of Roma inclusion. The purpose of this survey was to gain a better overview of the types of activities our members are involved in, and to enable our members to exchange project details and contact information across national borders.

The results of the mapping exercise proved to be a valuable foundation for networking and mutual learning. Therefore, we would like to update its contents on the basis of a second survey in 2015.

Like in 2012, our aim is to produce one downloadable document, which will be accessible to all visitors of our website, and one (more detailed) internal document, which will be for members only. The public document will summarise all responses to Part 1 and Part 2 of the Survey, whereas the document for members will also provide an overview of answers to Part 3, 4 and 5 of the Survey.

We would kindly like to ask you to fill out the attached survey and send it back to stephan.burger@eurodiaconia.org by **30th June**. In case your organisation is involved in more than one relevant project, please fill out one form for each project.

Members who have already filled out our survey in 2012 don't need to do so again, unless they would like to share information about new projects or provide additional details about projects from 2012. To access the results from our survey in 2012, please click [here](#).

You are also kindly invited to send us any articles, reports or other materials which have been written about your work with Roma – we will then upload this information to our website and our internal knowledge base.

Thank you in advance for your cooperation in this mapping exercise - we believe the results will benefit our members greatly!

Kind regards,

Heather Roy
Secretary General
Eurodiaconia
